
Overview

This standard covers the competences you need to assist with the preparation, maintenance and use of search or munition clearance equipment in accordance with approved procedures and practices.

You will be required to demonstrate that you can prepare, operate and maintain the equipment correctly according to the manufacturer's instructions reporting any defective equipment through the appropriate channels in accordance with approved procedures and practices.

This activity is likely to be undertaken by someone whose work role involves Weapons, Ordnance, Munitions or Explosives work activities. This includes people working as munition clearance support personnel.

Performance criteria

- You must be able to:*
- P1 work safely at all times, complying with relevant health and safety, environmental and other regulations, legislation and guidelines
 - P2 prepare, operate and maintain the equipment correctly according to the manufacturer's instructions
 - P3 report any defective equipment through the appropriate channels
 - P4 meet operational requirements and organizational procedures
 - P5 take readings and measurements accurately
 - P6 report any inaccuracies or inconsistencies of information

Knowledge and understanding

You need to know and understand:

- K1 the health, safety and environmental and other statutory legislation, regulations and safe working practices and procedures and their implications for your area of work
- K2 the relevance of personal protective equipment (PPE)
- K3 the actions to be taken in response to an unplanned event
- K4 how to inspect, test, prepare, operate and maintain equipment
- K5 operational requirements and organizational procedures
- K6 how to report any defective equipment

Scope/range

Different types of equipment: hand; powered

Benign environments
hazardous environments
