

---

## Overview

This standard covers the competences you need to carry out post-trial or post-test tasks relating to explosive substances and/or articles in accordance with approved procedures and practices.

You will be required to demonstrate that you can confirm that your test or trial objectives have been met and take follow up action allocating tasks appropriately in accordance with approved procedures and practices.

This activity is likely to be undertaken by someone whose work role involves Weapons, Ordnance, Munitions or Explosives work activities. This includes people working as test and evaluation supervisors.

---

## Performance criteria

- You must be able to:*
- P1 work safely at all times, complying with health and safety, environmental and other relevant regulations, legislation and guideline
  - P2 confirm that your test or trial objectives have been met and take follow up action
  - P3 allocate tasks appropriately
  - P4 allocate the equipment, consumables and services needed to complete post-trial or post-test tasks
  - P5 ensure that the equipment is maintained in accordance with your organization's procedures
  - P6 ensure that the work environment has been remediated
  - P7 ensure that explosive substance and/or article residues and products have been disposed of correctly
  - P8 ensure that the arrangements for recovery have been carried out in accordance with your organization's procedures and the trial or test plan
  - P9 write the post-trial or post-test report in accordance with your organization's procedures

---
