

---

## Overview

This standard covers the competences you need to identify and record the location and disposition of potential munitions within boundaries in accordance with approved procedures and practices.

You will be required to demonstrate that you can gather, analyse and interpret local information in order to re-assess the extent of the task in accordance with approved procedures and practices.

This activity is likely to be undertaken by someone whose work role involves Weapons, Ordnance, Munitions or Explosives work activities. This includes people working as munition clearance supervisors.

Identify and record the location and disposition of potential munitions within boundaries

---

## Performance criteria

- You must be able to:*
- P1 work safely at all times, complying with relevant health and safety, environmental and other regulations, legislation and guidelines
  - P2 establish your precise location
  - P3 gather, analyse and interpret local information in order to re-assess the extent of the task
  - P4 ensure that the defined or re-defined area meets operational requirements and local conditions
  - P5 record and communicate the defined/re-defined area clearly
  - P6 ensure that the information is recorded in the appropriate format
  - P7 ensure that the records meet operational requirements and organizational procedures

Identify and record the location and disposition of potential munitions within boundaries

---
