
Overview

This standard covers the competences you need to contribute to locating the disposition of potential munitions in accordance with approved procedures and practices.

You will be required to demonstrate that you can assist in carrying out an appropriate survey of the local environment and report the findings and implement the plan as directed in accordance with approved procedures and practices.

This activity is likely to be undertaken by someone whose work role involves Weapons, Ordnance, Munitions or Explosives work activities. This includes people working as munition clearance operators.

Performance criteria

- You must be able to:*
- P1 work safely at all times, complying with relevant health and safety, environmental and other regulations, legislation and guidelines
 - P2 assist in carrying out an appropriate survey of the local environment and report the findings
 - P3 implement the plan as directed
 - P4 assist in the selection of the most appropriate detection method and resources
 - P5 use the appropriate equipment effectively to the recognized standards and manufacturer's instructions
 - P6 report inconsistencies or anomalies of information
 - P7 take prompt corrective action in the event of problems arising
 - P8 mark the location of the potential munition
 - P9 confirm that the area has been searched within the stated criteria

Knowledge and understanding

You need to know and understand:

- K1 the health, safety and environmental and other statutory legislation, regulations and safe working practices and procedures and their implications for your area of work
- K2 the relevance of personal protective equipment (PPE)
- K3 the actions to be taken in response to an unplanned event
- K4 how to interpret information
- K5 the nature of any hazards
- K6 operational requirements and organizational procedures
- K7 the capabilities and limitations of resources
- K8 the interaction between suites of equipment
- K9 the stated criteria for searching the area and their implications

COGESA12.7

Contribute to locating the disposition of potential munitions
